PROFILE

Hi, I am Umrans Abdo Alaziez, a passionate and dedicated student at a coding institute, fueled by a deep curiosity for technology and its endless possibilities. I specialize in web development, problem-solving, and crafting innovative designs that merge functionality with creativity. My journey in coding has been a rewarding blend of challenges and accomplishments, sparking my drive to continuously learn, adapt, and excel. Beyond technical skills, I thrive on collaboration, embracing teamwork to tackle complex projects and bring visionary ideas to life. With a strong commitment to personal and professional growth, I aim to contribute meaningfully to the ever-evolving world of technology.

WORK EXPERIENCE

Full Stack Developer

Freelance | 2024 - Present

- Developed responsive and interactive websites using React, TailwindCSS, and JavaScript.
- Built and maintained backend applications with Node.js, Express.js, and MongoDB.
- Integrated RESTful APIs and optimized performance for scalability.
- Worked on UI/UX improvements to enhance user experience.

Frontend Developer

Alight, Rwanda | May 2024- June 2025

- Designed and implemented engaging user interfaces for web applications.
- Collaborated with backend developers to integrate APIs and improve app functionality.
- Ensured mobile responsiveness and cross-browser compatibility.
- Utilized GitHub for version control and project collaboration.

Education

- Secondary School Graduate
- Graduated in 2022
- Alight Coding Program, Rwanda
- Completed an intensive coding program focused on full-stack web development, gaining hands-on experience in modern web technologies and best practices.

PROJECT

- Portfolio Website - A personal portfolio showcasing projects and skills using React and TailwindCSS.
- Bookmark Manager - A tool to save and categorize favorite websites efficiently.
- Task Tracker - A productivity app for managing daily tasks and setting deadlines.
- Calculator App - A simple yet functional web-based calculator built with JavaScript.
- Time Converter - A web app that converts time zones and formats.
- Login Page - A secure and user-friendly authentication page with React and Firebase.
- More Projects... - Additional projects focusing on web development and problem-solving.
- and
